PROJECTS

AniVoice @BinaryHacks - FIGMA, ANDROID STUDIO, FIREBASE

- Designed and developed an Android app **within 33 hours** that helps in rescuing stray animals by giving user information about nearest Vet Clinic & Animal Welfare NGO in that area in one tap.
- Also added a feature of lost-found for animals, facilitating adoption of stray animals and a community posting.
- **1st Runner up** Real-World Problem solving @BinaryHacks
- **Special mention** for UI/UX design.

ACEBUDDY @CodeWithHarnoor - FIGMA

- Designed an Android app that helps students find opportunities to work using simple application process with separate APIs for pulling data about Interns and Full-time jobs.
- Integrated features like Anonymous Discuss Forum and a Task Management Section.
- **Verbal mention** for UI design.

TECHSTORE @MiniProject - CSS, JavaScript, HTML

- Engineered a Web app that shows latest tech gadgets released recently to the user depending on customer choice within categories. For example, In smartphone categories giving user a list of latest smartphones at one place.

LEADERSHIP EXPERIENCE

JOB DEVELOPMENT PROGRAM

- Chosen to lead a group of 4 students for group presentation competition.
- Helped teammates in assessing problem statement and led the team to **win with highest score in college**.

PROJECT

- Worked with team to create project from scratch and mentored in report writing and synopsis of project.
- Responsible for preparing presentation for project.

ACHIEVEMENTS
